

Housing Society Management Software (Android Version)

<http://www.echo.net.in/androidsociety.htm>

Software manages visitors of Society:

1. **Create Property database.**
2. **Create Member Database**
3. **Click Visitor.**
4. **Select Property, Tick SMS, Write details of Visitor including Mobile Number and photo of visitor.**
5. **Click **Save Entry**. Two SMS will be sent. One to Visitor, informing his Registration number so that during Exit, same will be informed to security person to enter exit time of visitor. Second SMS will be sent to Property owner to inform that one visitor having some mobile number will be visiting you.**
6. **During exit of visitor, Registration number of visitor will be selected by security person and then he click **Save Exit**. Then exit time of visitor will be entered in software.**
7. **Visitor query can be done. With click of list, details of visitor with photo can be checked. Same information can be shared using WhatsApp or other mobile software. All records can be transferred in MSEXcel Format for further use.**
